

Technical Data

PX MULTIPURPOSE GREASE EP2 BROWN

Product Description

PX Multipurpose Grease EP2 is a Lithium soap-based thickener formulated with selected mineral base oils combined with rust, oxidation and corrosion inhibitors and very effective extreme pressure additives.

PX Multipurpose Grease EP2 is a general-purpose grease designed to reduce wear and friction in automotive, industrial and other general applications. It designed for use in all antifriction and plain bearings subjected to high shock load and vibration conditions. It is also used extensively for applications throughout industry and the automotive sector.

Applications/ Benefits

- High degree of corrosion inhibitor
- Excellent extreme pressure and anti-wear performance
- High shear stability
- Good oxidation inhibited
- Suitable for wheel bearings of drum braked vehicles, chassis lubrication and other applications requiring grease lubrication on cars, trucks, tractors and trailers.
- Recommended for ball, roller and slow speed plain bearings operating under service conditions.

Typical Characteristics

Test Description	Result
NLGI	2
Dropping Point	185 Deg. C. min
Base oil viscosity @ 40Deg. C. (cSt)	250
Base oil viscosity @ 100 Deg. C. (cSt)	18.3
Thickener	Lithium
Colour	Pale brown
Operating temperature range	135 °C
Four Ball Weld Load kgs	315
